

Community Update

Affordable Senior Housing Update

The Sellersville Senior Housing project is moving forward. The zoning was approved by the borough in October 2018. We have submitted applications for funding for the project. LCT should be notified of the decisions regarding the funding this spring.

Summerfield (Grove Expansion)

The multi-phase independent living expansion continues to progress. A meeting was held with the local neighbors to address any questions or concerns they may have about the upcoming project. LCT has finalized cottage floor plans with the architect. A civil engineer is preparing the site plan and LCT will continue to work with the borough throughout the land development process.

The Century Club

The Century Club continues its campaign to raise funds to create an "Innovation Fund" which will allow LCT to leverage the latest in training and technology for improved patient outcomes. To date we have raised \$13,552 of the \$40,000 goal for the Century Club. Donations to this year's campaign will be accepted through June 2019.
